## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-16 and 24-36, drawn to a telepresence system for controlling telepresence devices with input devices, classified in class 345 subclass 156 (i.e. interface input devices).
  - II. Claims 17-23, drawn to configuring a telepresence system to provide views, classified in class 345, subclass 700 (i.e. graphical user interface).

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination (i.e. invention I) as claimed does not require the particulars of the subcombination (i.e. invention II) as claimed because invention I may use configuration methods other than the particular configuration method of invention II. The subcombination (i.e. invention II) has separate utility such as a method for configuring telepresence systems other than the particular telepresence system of invention I.

Art Unit: 2673

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to W. Gary Goodson (Reg. No. 22,387) on May 16, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made, due to the telephone number of record (i.e. 208-526-9469) being out of service.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
